## A Helping Hand To Your Community

### You want to help people in need, but you don't know how?

United Way specializes in rallying the caring power of thousands of people, like you, to help our neighbors when they need it most. Through the work of United Way, your donation helps local nonprofits **Give** a helping hand to people like:

Josh came to school without a coat on the coldest day of the year. Your donation helps kids like him receive the clothing and food they need to stay warm and healthy.

Rachel lost her job, home and family to the effects of substance abuse. Your donation provides housing and rehabilitative treatment so that recovery can be her reality.

Michael came from an abusive home and is at risk of not graduating from high school. Your donation provides tutoring, mentoring and counseling to give him a chance at a better life.

Amy lost her job and needs better skills to find a new one. Your donation provides employment coaching, skill building and financial counseling to help secure a stable future for her family.

Photos are for illustrative purposes only. Stories shared are actual UWCWV stories, but names have been changed.

It's simple to **Give** a helping hand...fill out the form on the back and we take care of the rest.
